Confirmation REACH

Dear Mr. Filippidis,

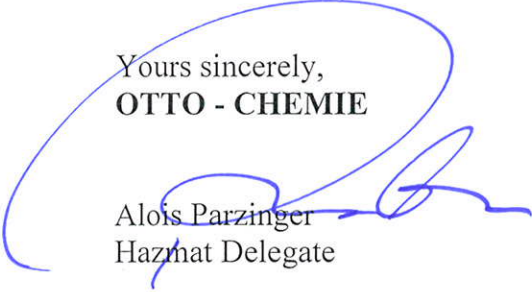

Thank you for your inquiry regarding compliance of the products supplied by OTTO CHEMIE with regard to the European REACH legislation (Regulation EC 1907/2006).

We are pleased to inform you that OTTO CHEMIE is committed to meeting its legal obligations as a downstream user (formulator) and that we have an extensive program in place for meeting those obligations.

We can confirm that our supplied products are in compliance with the REACH regulation. To this end we are seeking cooperation with our raw material suppliers and follow up closely on their intention to register their substances in order to ensure their availability. We only use (pre-)registered substances for our preparations. At this time we do not use substances mentioned in the "candidate list" in our products.

You as a client can count on us that we are actively working with our suppliers in order to ensure a continuity of our supply chain.

Yours sincerely,
OTTO - CHEMIE
